

## SAMPLE CODING

### Diffuse Large B-cell Lymphoma

| TYPE                 | CODE    | DESCRIPTION                                                                                                   |
|----------------------|---------|---------------------------------------------------------------------------------------------------------------|
| Diagnosis: ICD-10-CM | C83.30  | Diffuse large B-cell lymphoma, unspecified site                                                               |
|                      | C83.31  | Diffuse large B-cell lymphoma, lymph nodes of head, face, and neck                                            |
|                      | C83.32  | Diffuse large B-cell lymphoma, intrathoracic lymph nodes                                                      |
|                      | C83.33  | Diffuse large B-cell lymphoma, intra-abdominal lymph nodes                                                    |
|                      | C83.34  | Diffuse large B-cell lymphoma, lymph nodes of axilla and upper limb                                           |
|                      | C83.35  | Diffuse large B-cell lymphoma, lymph nodes of inguinal region and lower limb                                  |
|                      | C83.36  | Diffuse large B-cell lymphoma, intrapelvic lymph nodes                                                        |
|                      | C83.37  | Diffuse large B-cell lymphoma, spleen                                                                         |
|                      | C83.38  | Diffuse large B-cell lymphoma, lymph nodes of multiple sites                                                  |
|                      | C83.398 | Diffuse large B-cell lymphoma of other extranodal and solid organ sites                                       |
| ICD-10-PCS*          | XW033P9 | Introduction of glofitamab antineoplastic into peripheral vein, percutaneous approach, new technology group 9 |
|                      | XW043P9 | Introduction of glofitamab antineoplastic into central vein, percutaneous approach, new technology group 9    |

ICD-10-CM=International Classification of Diseases, 10th Revision, Clinical Modification; ICD-10-PCS=International Classification of Diseases, 10th Revision, Procedure Coding System; IPPS=Inpatient Prospective Payment System; NTAP=New Technology Add-on Payment.

\*Effective October 1, 2023, Medicare will provide an NTAP for COLUMVI to IPPS-participating acute care hospitals. NTAP cannot be granted if ICD-10-PCS codes are omitted.

These codes are not all-inclusive; appropriate codes can vary by patient, setting of care and payer. Correct coding is the responsibility of the provider submitting the claim for the item or service. Please check with the payer to verify codes and special billing requirements. Genentech does not make any representation or guarantee concerning reimbursement or coverage for any item or service.

Many payers will not accept unspecified codes. If you use an unspecified code, please check with your payer.

for COLUMVI™
